Public Notice:

Proposed No Further Action Determination

Central California Traction Company Site Spill Investigation

305 S Guild Ave, Lodi, San Joaquin County

The purpose of this notice is to inform you that:

1. On 7 April 2011, a vehicle accident involving a semi-truck caused less than 100 gallons of diesel fuel to leak from the truck fuel tank onto the soil near the railroad tracks at 305 S Guild Avenue (Site).
2. Between 7 and 15 April 2011, approximately 50 gallons of diesel fuel and over 57,000 pounds of diesel polluted soil was excavated from the Site and disposed of at a landfill.
3. On 15 April 2011, soil samples were collected from the floor and walls of the excavation. The excavation was then backfilled with clean railroad rock.
4. Sample results verified the extent of the spill was confined to a limited area and the excavation was effective in removing diesel from Site soils.
5. The Central Valley Regional Water Quality Control Board is providing the public an opportunity to comment on the proposed no further action determination for the Site.

Public Comment Period:

September 23, 2022 through October 23, 2022

FOR MORE INFORMATION

Additional information is available on the State Water Resources Control Board GeoTracker website at <http://geotracker.waterboards.ca.gov/>. Information can be found on the GeoTracker website by searching by address (305 S Guild Ave, Lodi), by name (Central California Traction Company), or by case identification number (T10000003187).

Please contact Nicholas White with the Central Valley Water Board if you have any comments/questions regarding the Central California Traction Company spill site investigation, the cleanup activities at the Site, or any of the information in this Fact Sheet:
